

F1-3

F1 resolved — every open point decided

Daniel's Rev 07 with its ten open points decided (chat's picks, delegated 1 Nov): F1-1's quiet base plus F1-2's sculpted wall ends, screened kids bath, icon wall and floating suite sofa — nothing left to choose.

- 1 · TV wall: TV on the east face for the sectional, walnut display shelf on the west face for the garden lounge; 1.8 m high with two rounded 0.55 drum ends so it reads as one sculpted piece — no fireplace niche.
- 2 · Breakfast bar: 1.05 high, 0.60 counter + 0.30 overhang, three stools on the hall side; dining table 0.50 north; the lobby leg keeps its 1.10 upstand so the front door never sees the kitchen.
- 3 · Island: slimmed to 0.80 × 1.50 so both aisles are ≥ 0.95 (1.05 to the sink run, 0.99 to the bar back); two-burner hob centred with 0.60 landings, oven under, no stools; four-leaf bifold as before.
- 4 · Pantry: one full-height 0.35 shelf wall (east) + the 0.40 worktop on the street wall = a 0.93 aisle you can turn in; a 0.15 jar rail on the west wall; 0.80 accordion door centred on the aisle.
- 5 · Tea corner: as F1-1 (bench arm −0.15, table 0.70, 0.81 m way in).
- 6 · Suite divider: the 1.52 two-leaf pocket pair that vanishes by day; in the lounge F1-2's floating sofa stays, shortened to 1.70 and pulled 0.52 south so it clears the terrace slider wall by 0.90.
- 7 · Laundry strip: a plain 0.88 opening from the landing, no leaf; the stray door arc on its north wall is dropped — the dressing wardrobe keeps its full length.
- 8 · Kids bath: F1-2's layout — 1.70 tub under the west window, 1.30 double basin on the north wall with the window on the kids' left, wall-hung WC in the SE niche behind a 1.2 half wall, door at the north end of the east wall hinged south.
- 9 · Prayer room: door confirmed; icon wall on the north wall opposite the door, kneeler in front, candle shelf on the column.
- 10 · Linen closet opens to the corridor, bath storage stays inside the bath — unchanged.
