

T2-D

Folded house

One walnut wall folds at 45° through the suite, curves soften every turn, and the 3.2 m section hides two lofts.

- Top of the stair, the suite door. Behind it a 45° suite gallery runs to the bed: the folded walnut wall hides his closed dressing (2.6 m hanging) on one side, pocket doors to hers (4.3 m hanging) and the master bath on the other.
- The diagonal pays: the slanted wall is 3.0 m long where a straight one would be 2.1 m, and the bedroom's leftover corner becomes his closed dressing.
- Space out of nothing, from the 3.2 m section: a secret crawl-in loft over the kids bath (5 m²), a reading loft over the double room's desks (5.6 m²), suitcase lofts over the dressings.
- Curves where you turn: a quarter-circle walk-in shower (no glass), a curved glass vestibule looking straight through to the garden, a curved half-wall wrapping the round dining table.
- Prayer room door on a 45° corner, icons on the east wall facing the seats. Guest WC with a second door via the garden store for garden days.

Big moves

– 45° suite gallery; his (closed, behind the walnut fold), hers + master bath (stack W1) off it.

– Quarter-circle shower; chamfered prayer door; landing heart: kitchenette, linen, laundry 3.2 m².

– Lofts: crawl loft over the kids bath, desk platform loft, storage lofts over the dressings.

– Ground: curved glass vestibule, walnut pivot wall to the kitchen, curved dining half-wall.

– Round 2 (Daniel 19 Oct): HIS is now a closed 3.3 m² room (2.6 m wardrobe + mirror) behind the folded walnut wall, pocket door off a slimmer suite gallery facing the hers door; hers 5.3 m² stays larger. Movement fixes: kitchenette moved onto the hers wall of the landing (frees the prayer door), prayer chamfer pushed back, lounge doors re-sited (landing door clear of the linen, suite pocket door north of the dresser), lounge shower widened 12 cm and re-laid, cot/armchair swap in the lounge corner, salon armchairs spread, vestibule bench off the guest-WC door.
