

T1-R2

Master plan, round 2 — the suite and the st

Round 1 plus a real hotel suite: one door, a dressing gallery, a windowed shower room, and twice the hanging space.

- Suite door straight ahead as you reach the top of the stair. Inside: his dressing gallery (3.4 m) leading to the bedroom, hers walk-in (4.7 m) behind a sliding door, shower room with its own window.
- Kitchen opens to the hall through a 1.6 m sliding glass wall (closed for guests and frying, open for family life), plus the glass walls to the dining that you already have.
- Stair top becomes the family utility heart: kitchenette, a 3.1 m² laundry with machines side by side, and the lounge's own door — all outside the suite.
- Suite lounge 13 m² with its own shower room: a private sitting room now, a bedroom with an ensuite at stage 3.
- Kids wing unchanged from round 1: one wing door, hidden playroom door, bath reachable from inside the playroom.

What changed

- Suite rebuilt: dressing gallery + hers walk-in + shower room in the old his / shower / hers strip; suite hall and passage folded into the gallery (1.2 m² less corridor).
- Hanging space: his 2.75 → 3.4 m, hers 3.35 → 4.7 m. Master shower room 5.4 → 5.3 m² but with a window.
- Kitchen ↔ hall: 0.9 m pocket door → 1.6 m sliding glass wall.
- Laundry 2.7 → 3.1 m², shower 2 grows; suite lounge 13.8 → 13.0 m².
- Under-stair store fitted in the stair well footprint (ground).
